## WORK EXPERIENCE

- **SOFTWARE ENGINEER**  
Paintzen | Aug 2019 - April 2020
  - Built client-facing and internal tool applications utilizing React, Node, Express and MongoDB
  - Integrated applications with third party APIs such as Evident ID, DocuSign, and Smartsheet
  - Utilized Agile/Scrum approach to development with daily standups and regular scrum ceremonies
  - Wrote unit and end-to-end tests using Jest, React Testing Library, and Cypress
- **ASSOCIATE INSTRUCTOR OF SOFTWARE ENGINEERING**  
Galvanize, Inc. | 2019
  - Conducted technical interviews on JavaScript fundamentals for prospective students
  - Provided technical support to 50+ students while also instructing them on debugging best practices
  - Hosted community events and after hours talks for students within a remote learning environment
  - Provided peer code review for students and colleagues throughout the organization

---

## EDUCATION

**Hack Reactor @ Galvanize**  
2019  
Advanced Software Engineering Immersive Program

---

## PERSONAL

I'm extremely passionate about music and music production. As a musician, I've toured across the United States extensively. While no longer touring, I continue to record and collaborate with others musically during my free time. The average Pitchfork rating of all the bands I've played in is 7.4.
